

5G's Strata Line Credenza Gets Picked Up by + Space Gallery.

Positive Space is one of the "edgiest modern furniture galleries in the region". They are known for their high-end furniture lines such as Extremis, Emeco and Sixinch.

EXTREMIS
tools for togetherness

Positive Space is a high-design furniture and home-accessories concept store. The owners, Charles and Natalia Duran, traveled across the United States looking for something completely different. They found what they were looking for in contemporary outdoor furniture from Belgian company Extremis; chrome chairs and industrial-inspired furniture from U.S.A. brand Emeco; funky wallpaper by London designer David Roos; and brightly colored, weather-resistant Louis XV chairs from Belgian design firm Sixinch, making them the first showroom in the country to sell these prize-winning pieces.

"Design is balance. It keeps us sane and it helps us live more productive lives. Design makes life better."

-Charles Duran
